

# EXPLORING WITH OATS

Date: May 24, 2011

## DESCRIPTION OF ACTIVITY:

We explored with oats in a bucket with shovels, scoops, and small containers. The babies scooped and poured oats while at the same time listening to the sound of oats being poured and even tasting them!

## OUTCOME:

- \*fine motor skills to pinch pieces of oats while place them in a container
- \*eye-hand coordination while scooping and pouring
- \*gross motor skills while throwing oats up in the air
- \*exploring with their sense of taste, touch, sight, and sound
